

# LED Trunk Light for Harley

VST-010102-009

## BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

## IMPORTANT

This LED Trunk Light is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris.

## INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.

### 1. Products Display

2. Open the trunk of the original car, take out the inner village, remove the original tail light, then remove the antenna and other screw accessories, and finally re-install it on the new tail light. as the picture shows:

3. Put the new taillights back on the original car, and install the taillight harness connectors in advance. Tighten the screws in the order indicated in the picture (do not overtighten the screws first, and then tighten them after all the three screws are fixed). As shown in the figure:
