

Front Turn Signals Lights for Kawasaki Z900 2020-2024

VST-010702-004

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

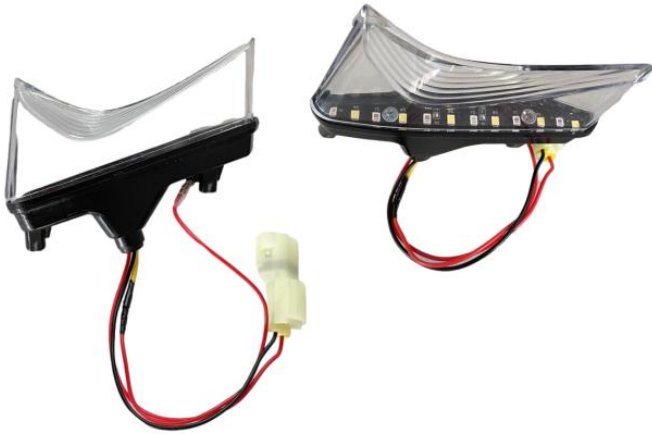

IMPORTANT

This front turn signals lights is exclusively designed for your motorcycle. Please read the installation instructions thoroughly before beginning. Installation is easier if the motorcycle is clean and free of debris.

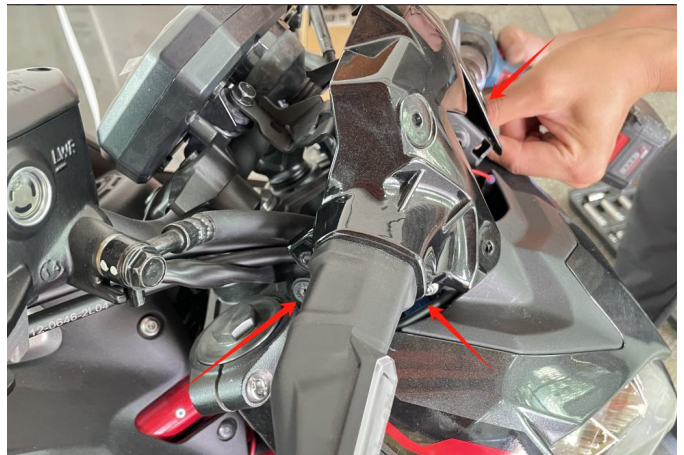

INSTALLATION INSTRUCTIONS

Note: Shift motorcycle transmission into "PARK". Turn key to "OFF" position and remove from motorcycle.

1. Products Display:

2. First remove the original front plastic windshield, turn signals and headlights. As the picture shows:

VST-010702-004

3. Remove the daytime running lights from the original headlights and move the original fixing bracket to the new daytime running lights, use the original screws to fix them, and then install the new daytime running lights back to the original position. (Replace and install the other side in the same way). As the picture shows:

4. The original headlights as well as the daytime running lights can be put back in place after reconnecting the overall wiring harness. As the picture shows:

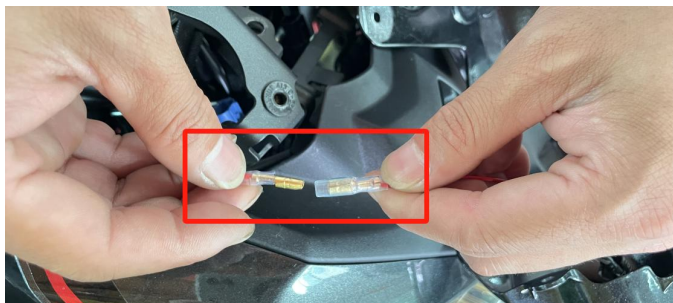

5. Remove the wiring harness from the kit and connect them in parallel to the original turn signal wiring harnesses, insulate and protect them when finished (left to turn signal green harness, right to turn signal gray harness). As the picture shows:
